Vehicle Description

Supplied new on the 28th October 1997 (1998 Model Year Car) by H.R Owen of London this RT larger turbo 400bhp example is the best in the UK if not the world.

This RT LWB example has come direct from one of the most prestigious and historic families in the world, where it was the pride of the Chauffeur driven cars and unsurprisingly is in near as new condition.

Noted from the factory build records and in Capitals is 'HIGHLY FIGURED BURR WALNUT AT TIME OF BUILD.'

Added more recently was a bespoke brandy and glass holder integrated into the rear compartment at a cost of £5,000

Just serviced by Frank Dales with all books, tools.

I make no apologies for this being amongst the higher price Turbos available, but you would spend three times the amount on making a cheaper example as nice as this.
